## "School Library Extension & Modernization Project"

Arunodaya Secondary School, Khairiphanta, Kailali, Far West Nepal

To,

Rupareliya Foundation

Arunodaya Secondary school was established on 18th August 1972 (Bhadra 1, 2029 BS) with the aim of providing education to the children of the recently migrated hill people in the River basin of Karnali River in the Terai district of Kailali district. At that time, there was not even a single school and human density was also very low. Facing different kinds of challenges due to the lack of infrastructures such as road, school, electricity, hospital and others- still migrated families had a hope to enlighten their children. They wanted to avoid darkness from the life of their children so they began to see a dream to open a school in the newly established village in the middle of the forest.

Parents formed a committee under the chairmanship of Late Tikaram Bhat for the School establishment and Late Gagan Singh Thapa enrolled as a first Teacher & Principal of the School. After three year of establishment school got the Primary level Class Permission from District Education Office in 2032 B.S. (1975 AD) Same way school get the permission of Lower Secondary Level in 2037 B.S.(1980 ) and Secondary Level (High School) Class Permission in 2047 B.S. (1990) Also school got permission of Higher Secondary Level classes from Higher Secondary Education Council in 2064 B.S. (2007 AD) Now, the school has been running from ECD level to class twelve and 799 students are studying in this school from different communities mainly from Ex Kamaiya (ex slaves), Dalit (lower cast) and poor village families. Now, the school has made plan for - "Library Extension and Modernization Project" that carries both physical and e-library and we want to complete this project with the help of our well-wishers and organization.

**This project carries the following task:**

-To set up modern school library

प.सं. / Ref: 24-2023/024

दिनांक / Date: 17 Aug. 2023

- To set up children and adult reading section
- To make child friendly furniture's and amenities,
- To set up e-library with sufficient computers and IT tools
- To set up comfortable furniture in the e-library zone
- To have sufficient books and study materials in the library for students and teachers
- To establish a proper library management system and train library staff for its operation.

## Expected benefits of this project:

- To enhance the reading habit of the school children and the community people as well
- To improve the learning achievement level of the students
- To provide the students the global knowledge
- To make the easy access of library in a remote village.

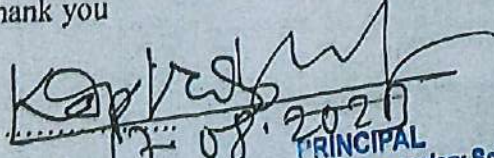

## Sustainability of the Library

After establishing the library at once by well wishers donation, the school administration has the major responsibility for the protection, usability and its continuation. As per the need, the school will add new books, reference materials and necessary items in the library & e-library section as well. The school will implement a proper operation system and hire trained staff for operation of the conventional and e-library both.
